EDUCATION

Bachelor of Science: Computer Science | 2020
Khon Kaen University, Khon Kaen Thailand

HARD SKILL

- Go
- C# .NET
- Java
- TypeScript
- JavaScript
- SQL
- Docker

TOOLS

IDE

- IntelliJ
- Visual Studio Code

Cloud

- Azure DevOps
- GitLab

Database

- MySQL
- SQL Server
- Oracle

Frameworks

- .NET Core
- Next.js
- Express.js
- React
- Spring boot
- Gin
- Redux
- EF

CI/CD

- Azure pipeline
- Jenkins

CERTIFICATIONS

- Kentico cms course (certificate): **Kontent.ai**
- K2 five course: **Nintex Thailand**
- DevOps: **Somkiat.cc**

Chokpaisan Sripraiwan
Software Engineer

EXPERIENCE

Software Engineer *ttb Bank (TMBThanachart Bank Public Co., Ltd.)| June 2024- Now*

- Developed and maintained debt restructuring and scoring verification systems for banking platforms
- Designed system architecture, databases, and CI/CD pipelines to enhance performance and reliability
- Collaborated with BP, PO, vendors, and outsourcing teams to deliver compliant solutions
- Performed root cause analysis, system troubleshooting, and ongoing production support
- Prepared comprehensive application documentation and served as the key owner for deployment and release processes

Key Achievements or Projects

- Implemented and optimized Cron jobs to automate key processes, improving system stability and reducing downtime
- Migrated legacy systems to a modern tech stack in compliance with banking policies, resolving technical debt and improving performance

Tech Stack: Java springboot, .Net core, Vite React
Database: Mssql, Postgresql, Oracle, Redis

Full-stack developer *AXONS (Cpf IT Center Co., Ltd.)| Mar 2023 – May 2024*

- Agile Development
- System Design and Sprint Planning
- Research and Development
- Unit Testing and Code Coverage
- Collaboration with QA and Business Analysts

Key Achievements or Projects

- Designed Smart Feed Planning, a centralized system for evaluating and managing feed formulas for domestic and international factories
- Built Smart Feed Queue, a queue management system for optimizing raw material transport logistics
- Implemented Estimate Premix, a system for managing premix orders and forecasting upcoming demand

Tech Stack: React, .Net core, Gin Golang
Database: Oracle

Software Developer *(Soft De'but Co., Ltd.)| Nov 2020 - Feb 2023*

- Requirement Gathering from Users to Design Program Structures
- Support and Bug Fixing
- System Deployment
- Research and Development of New Tools

Key Achievements or Projects

- Internal Meeting Management System for the Central Committee on Education and Social Situation
- NT Online Payment System: Online payment system serving general customers
- POS EatsHub food System: Restaurant management and online food ordering system
- Equitable Education Fund System: System for approving education subsidy funds

Tech Stack: .Net
Database: Mssql
